

qConnect 2024 Quantum Solutions Showcase

Elevate your quantum technology and solutions on a global stage by participating in the Solutions Showcase at qConnect 2024.

Quantum technology holds the potential to innovate industry and solve significant commercial challenges. The qConnect 2024 Solutions Showcase provides an opportunity to pitch your quantum solution in a concise 5-minute presentation. You will have the attention of industry leaders, potential partners and end-users from Canada and beyond as you demonstrate how your company is tackling real industry challenges.

Join us at qConnect 2024 to amplify your company's quantum solution and connect with industry leaders.

Format:

October 2 and 3, 2024, at the TELUS Convention Centre, Calgary, Alberta. The showcase will take place in-person. One speaker on a stage. A five-minute presentation to qConnect 2024 attendees. PowerPoint presentations will be supported.

Travel Bursary:

Invited companies can apply for a travel bursary, which will be awarded through a competitive application process.

Eligibility:

- Location: Companies from across the world are invited to apply.
- Company stage: Startups and companies at various stages of development, from early stage to more established entities, could be eligible to participate.
- Solution: Solutions should demonstrate tangible benefits, such as improved efficiency, cost savings, enhanced performance or novel capabilities, and be at a stage of development where they are ready to be presented to potential industry partners or investors.
- Relevance to industry challenges: Solutions that directly address industry challenges and have the potential for practical application in real-world scenarios should be prioritized. Solutions relevant to Alberta's energy, agriculture, aviation/logistics and financial services will be prioritized.
- Quantum technology focus: Companies with quantum computing, sensing and communication solutions are eligible.
- Feasibility and scalability: Solutions that are not only innovative but also feasible to implement and scalable for broader adoption are eligible. This ensures that the showcased solutions have the potential for real-world impact and long-term sustainability.

About qConnect 2024:

A unique two-day summit in Calgary, qConnect connects over 300 participants, including industry leaders and quantum creators with prospective users of their technology. Included within the programming, inspiring

presenters and panels will explore potential applications of quantum technologies in health, energy and sustainable cities.

qConnect 2024 offers a dynamic platform for industry leaders, government representatives and stakeholders from around the world to converge and explore the transformative potential of quantum applications, while engaging with quantum creators whose technologies will disrupt - and improve - industries in the years ahead.

Benefits of participating:

- Opportunity to pitch your solution to 300 attendees from across Canada and Beyond
- Network with potential end-users and future clients across adopting industries
- Promotion on qConnect 2024 website and other promotional materials
- Opportunity to promote your participation in the Summit on your social media
- Complimentary Summit registration for presenter

Interested?

If you are interested in highlighting your solution during the qConnect 2024 Solutions Showcase, please email us by Friday, July 5 with your pitch using a deck of no more than 10 slides. Please also include in your email the name of your presenter, phone, email, company name, location, size, website, LinkedIn, and a written description of your solution (250 words max).

In addition to the pitch deck, we ask that each participant provide a one-page maximum technical summary of their approach. This summary should outline the basic technical aspects of their proposed solution in relation to quantum technologies. We understand the need to protect proprietary information, so we encourage participants to include references to academically published studies that support their proposed quantum solution.

The Showcase space is limited; you will be informed by July 22, if your company has been selected.
